

**8<sup>th</sup> Southern African Plant Breeding Symposium**  
**“Breeding the Future”**

**Spier Wine Estate, Stellenbosch**  
**March 15<sup>th</sup> – 17<sup>th</sup>, 2010**

A reminder that abstract and oral submissions are open for the 8<sup>th</sup> Southern African Plant Breeding Symposium which will be held during March 2019 at Spier Wine Estate in Stellenbosch. Please refer to their call below or visit their website for further details.

The theme this year is “Breeding the Future”. Plant breeding is one of the technology area which we invest in and as such PlantBio, in supporting the SAPBA and their drive to stress the importance of plant breeding, will be sponsoring a number of students to attend the symposium.

**Applications are open to:**

- **South African students, currently studying at a South African University, in the areas of plant pathology, Plant Genetics and/or breeding.**
- **Successful applicants must be registered for the SAPBA Symposium and have either an oral or poster abstract accepted by SAPBA**

The sponsorship will cover travel and accommodation as well as registration costs.

Should you meet the requirements and wish to apply for sponsorship, kindly complete the attached form and submit to [Helen@plantbio.co.za](mailto:Helen@plantbio.co.za) before **20 January 2010**.
